The extant Registers of this parish, beginning in October, 1682, and coming down to 1812, are comprised in three Volumes. The first was in a very bad condition, but has been carefully repaired and re-bound in limp cloth, though the edges of the leaves are much worn and torn, and probably some of the Births' Register are lost. It records the Marriages and Burials from that date until 1726, and these seem to have been regularly entered by Aquila Forster and James Allgood, the Rectors during that period, with their own hands, and are fairly well written.

**1346610**

The Register of Births, the greater part of which were not christened in the church, commences in 1696, and was carried on apparently with moderate regularity until 1709, although in that and the preceding year, the day and month are not given; but after that the entries are few and at long intervals, while those on page 142 are of a much later date.

The first two leaves, both of the Births' and Burials' entries, are now placed in reversed order, but this may have been done in the re-binding.

This Volume also contains the Minutes of the Vestry Meetings and the Churchwardens' Accounts from 1735 to 1786, and in 1792; a list of Collections upon Briefs from 1706 to 1730; and also reports of Archdeacon Sharp's Visitations of the Church in 1763 and 1787.

Volume II. is of parchment, and bound in calf; it is somewhat worm-eaten, but otherwise in excellent preservation. It carries on the Baptisms until 1824, the Burials until 1812, and the Weddings until 1763.

Volume III. is a large book of paper, well bound in rough calf, and in good condition. It contains Banns and Solemnizations of Marriage, intermixed, from 1754 to 1823.

The entries in both these Volumes are upon the whole fairly well and legibly written, though in a great variety of hands, indicating many changes of ministers.

A comparison of the number of entries in the early years with those in the later ones, shows that the population has greatly diminished.

From 1684 to 1703, Weddings	-	46.
„ „ Burials	- -	192.
From 1784 to 1803, Weddings	-	15.
„ „ Burials	- -	75.
From 1881 to 1900, Weddings	-	6.
„ „ Burials	- -	59.
From 1696 to 1705, Births	- -	107.
„ 1796 to 1805, Baptisms	-	12.
„ 1891 to 1900, „	- -	12.

The very great reduction between Births and Baptisms in the former period may, no doubt, be attributed to the fact that the greater part of the inhabitants have been Presbyterians, and the passing of the Toleration Acts allowed them to make use of nonconformist ministrations; and the same, together with the Registration Acts, applies to the reduction of Weddings in the last century.

But the diminution of Weddings in the preceding century, and of the Burials throughout, testify to a great falling away in the population; as the numbers in the 17th century unmistakably show, after allowing for outsiders, a population of 350 to 400 at the least, while it is now only 157.

The chief causes of this have probably been the extinction of the spinning-wheel and the hand loom, and the laying down so much of the tillage lands to pasture.

Where the entry is illegible, or where there is no entry at all, the Editor has indicated it by [*blank*], and where any doubt as to the name existed, by a query.

The letters *lic.* indicate that the Marriage was solemnized by License: where this does not occur it was in all cases performed after the Publication of Banns.

It is well to remind readers that previous to 1752 the year began on the 25th of March, instead of, as now, on the 1st of January.
